2 EXFOLIATION

Mix a little amount of ENZYMATIC PEELING with EAU VERT lotion until a fluid mix is produced that enables application using a brush. Spread on the eye contour area and leave to rest for 10 mins. Remove with water. Apply the EAU VERT lotion to enhance product removal.

Apply EYE CONTOUR CREAM and perform manual lymphatic drainage and exert pressure on relaxation points.

Using a brush, apply a thick layer of EYE CONTOUR MASK on the top and bottom of the eye. For increased relaxation, it is recommended to cover the eyes with cotton pads wet with EAU VERT. Leave to rest for 15 mins. Gently remove using sponges wet in water or cotton pads wet with lotion.
