Depending on the needs, two options are available:

Sensitive skin:

Mix two measures of ENZYMATIC PEELING with EAU VERT lotion until a fluid mix is produced that enables application using a brush. Spread it and leave to rest for 10 mins. Remove with water. Apply the EAU VERT lotion to enhance product removal.

Normal skin:

Apply NEW EVEN 50/30 CONCENTRATE with AHAs.

Apply 2.5ml using a brush and perform fanning motions on the face, neck and chest. Do not apply on mucous membranes or wounds.

Application time will range between 4 and 8 minutes at the cosmetologist's discretion.

Remove with water.

Apply EAU VERT using wet cotton pads or spraying it directly on the skin.
