- Hyperpigmented skin showing localised and/or diffuse spots.
- Skin with a yellowish and/or ochre tone.
- Illuminate the face for special occasions

DURATION AND PERIODICITY

- Time per session: 1 hour
- Intensive treatment: 8 sessions, two per week
- Maintenance: 2 monthly sessions

For thick and highly pigmented skin, it is recommended to carry out preliminary preparation sessions with the NEW EVEN or GLYCOVIAR treatments.

REQUIRED PRODUCTS

VITAL LINE MAKE-UP REMOVER GEL FOR EYES AND LIPS

It cleanses without leaving a greasy residue. It is indicated for sensitive eyes and removes waterproof products

NEW EVEN CLEANSING GEL

It offers gentle cleansing, renovates and soothes skin, and normalises sebaceous secretions.

NEW EVEN TONIFYING LOTION

It revitalises, refreshes, moisturises and renovates skin

EAU VERT LOTION

It decongests and soothes skin

ENZYMATIC PEELING or NEW EVEN 50/30
CONCENTRATE

Peeling = It removes dead cells and impurities, stimulates cellular renewal and prepares skin facilitating the penetration of subsequent active components.

New Even = It renovates, moisturises and regenerates skin

WHITENING K CONCENTRATE

It inhibits melanin production and renovates and moisturises skin

WHITENING K SERUM

It inhibits melanin production and renovates and soothes skin

WHITENING K MASK

It inhibits melanin production, offers protection against free radicals and soothes skin.

WHITENING CREAM

Total protection against sun radiations. It inhibits melanin production and soothes and renovates skin.

STEP BY STEP

1 CLEANSING AND TONING

Apply the VITAL LINE MAKE-UP REMOVER GEL FOR EYES AND LIPS using cotton buds or pads and performing circular motions. Remove with water.

Apply the NEW EVEN CLEANSING GEL on the face and neck and work on it until make-up traces or impurities are eliminated. Remove with water. This gel can be used for brassage.

Apply NEW EVEN TONIFYING LOTION using wet cotton pads or spraying it directly on the skin.

2 EXFOLIATION:

Sensitive skin:

Apply ENZYMATIC PEELING on the entire face and neck. Mix two measures of peeling with EAU VERT lotion until a fluid mix is produced that enables application using a brush. Spread it and leave to rest for 10 mins. Remove with water. Apply the EAU VERT lotion to enhance product removal.

Normal skin:

Apply NEW EVEN 50/30 CONCENTRATE with AHAs.

Apply using a brush and perform fanning motions on the face, neck and chest. Do not apply on mucous membranes or wounds.

Application time will range between 4 and 8 minutes at the cosmetologist's discretion. Remove with water.

Apply NEW EVEN TONIFYING LOTION using wet cotton pads.

3 CONCENTRATE:

Apply 2.5ml of the WHITENING K CONCENTRATE. Press the cap and mix the two product phases.

Work on the entire face until fully absorbed.

Warning: Once the concentrate has been mixed, it is effective for 15 days. Beyond this period, Anubis can not guarantee total effectiveness.

4 FACIAL MASSAGE

Perform a classic facial massage with WHITENING K SERUM, putting special attention on the areas with higher pigmentation. +pole and -pole ionization.

5 MASK

Apply WHITENING K MASK on the face, neck and chest using a brush and leave to rest for 15-20 minutes. Remove with water and apply EAU VERT lotion using cotton pads to enhance product removal.

6 CONCLUSION:

Apply WHITENING CREAM until product is absorbed.

MAINTENANCE AT HOME

Once the treatment is finished, we say goodbye to the customer while explaining the importance of products to be used at home. We can recommend daily and weekly care: Cuidado diario:
